

CALL TODAY 1-570-655-4230

STANLEY STEEMER Is Ready to Clean and Disinfect Your Facilities.

Now offering 48-hour turnaround service in your area!

YOU NEED FULL CLEANING AND DISINFECTING.

According to the CDC, cleaning is the necessary first step of any disinfection process.

The CDC recommends hard surface disinfection for high touch surfaces.

•• NEW CDC GUIDELINES ••

As of 4/8/20, the CDC is recommending deep cleaning, sanitizing and disinfecting all facilities, whether currently open or planning to reopen later.

For complete information, follow this link: <https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/cleaning-disinfection>

Stanley Steemer uses an EPA Registered Disinfectant Cleaner to kill a broad spectrum of microorganisms in order to provide clean, sanitary and healthy commercial spaces.

This product is a hospital grade disinfectant cleaner that meets the EPA's current criteria for use against SARS-CoV-2 when used on hard/non-porous surfaces such as:

Railings

Countertops

Door Handles

Tables and Desks

Bathrooms and Kitchen Handles

This product also disinfects hard/non-porous flooring and is a highly effective cleaner of Soft/Porous Surfaces—including Carpet, Rugs and Upholstery—when used in connection with our proprietary and industry-leading cleaning equipment.

WE ONLY USE GREEN, ENVIRONMENTALLY SAFE PRODUCTS.

We also have enhanced our Equipment Disinfection Protocol with the introduction of an additional **EPA Antimicrobial Registered Disinfectant** which also meets the EPA's criteria for use against SARS-CoV-2 and other Emerging Viral Pathogens.

All cleaning equipment will be thoroughly cleaned and disinfected after every job for the health and safety of our employees and to limit any risk of transfer. This process will be repeated at the end of each workday along with a complete cleaning and disinfection of our service vehicles.

From a company you have trusted for generations!
